FINAL PHASE 1 REMEDIAL ACTION, SOIL AND DEBRIS REMOVAL FOR INSTALLATION RESTORATION SITES 1 AND 2 AT FORMER NAVAL STATION LONG BEACH, LONG BEACH, CALIFORNIA

Dear Ms. Espinoza:

The Department of Toxic Substances Control (DTSC) received for its review the Final Phase 1 Remedial Action, Soil and Debris Removal for Installation Restoration (IR) Sites 1 and 2 at Former Naval Station Long Beach, Long Beach California dated February 2006. This report describes and documents the implementation of the first phase of a non-time-critical remedial action and its effectiveness in achieving the remedial action objectives established in the Final Record of Decision for IR Sites 1 and 2, dated June 2000.

DTSC agrees to separate the radiological chemicals of concern investigation and assessment work from the completed soil and debris removal that was conducted in 2000-2001. As a result, DTSC hereby concurs on this final document.

We look forward to continuing to work with you on base cleanup activities at the Long Beach Naval Complex. If you have any questions, please contact Ms. Sue Hakim, Remedial Project Manager at (714) 484-5381.

Sincerely,

Manny Alonzo, Chief
